Report episode to Registered Staff.</p> <p>Date Initiated: 09/02/2022 Created on: 09/02/2022 Created by: Navneet Dhaliwal (Registered Nurse) Revision on: 09/02/2022 Revision by: Navneet Dhaliwal (Registered Nurse)</p> <p>• BSO RECOMMENDATIONS:</p> <p>NEW</p> <ol style="list-style-type: none"> 1. Use nonverbal communication - Incorporate gestures, facial expressions and calm tone of voice to enhance understanding and reduce frustration during care. 2. Keep Aida's hands occupied - Provide Aida with rolled hand towels during care to prevent incidents of grabbing and pinching. 3. Consider pain as a trigger for Aida's expressions. If Aida is expressive during care, STOP, use the PAINAD tool to assess. Do not force her to avoid escalation. If positive, suggest utilizing available PRN analgesics then return 30 min to 1 hour after administration to allow the pain medication to take effect and reduced pain related expressions. 4. Due to language barrier friendly body language and hand gestures can help to assist in successfully redirecting or providing care to Aida. 5. Report all expressive behaviours to team leader. <p>Date Initiated: 04/30/2023 Created on: 04/30/2023 Created by: Lisa Bould (RAI Coordinator) Revision on: 04/24/2025 Revision by: Ksenia Tchpilko (RPN)</p>	PCA Registered Practical Nurse

<p>• Potential for Expressive Behaviour; recent hx of PHYSICAL EXPRESSIONS related to Fragile X chromosome, Cerebral Palsy as evidence by cognitive impairment.</p> <p>Physically responsive episodes on Dec 26/19, March 18/20, July 14/20, Oct 25/20, Nov 21/20, Dec 6/20, Mar 24/21, Apr 25/21, May 5/21, Aug 15/21, Sept 12/21, Sept 24/21, Nov 1/21, Nov 8/21, Nov 15/21, Nov 17/21, Nov 22/21. Nov 28/21. Aug 09/22. Oct.28/22, october 29,22. Physically responsive August 26/23 Date Initiated: 12/26/2019 Created on: 12/26/2019 Created by: Amrit Dhaliwal (Registered Practical Nurse) Revision on: 11/10/2023 Revision by: Lisa Bould (RAI Coordinator)</p>		<p>2. Allow Mark to pick out his own clothing.</p> <p>3. Continue to approach Mark cautiously. Be sure to tell him what you are doing whether it is giving him a snack or approaching him for care and ask his permission before touching him and or entering his personal space.</p> <p>4. Although Mark is noted to have "unpredictable" behaviour at times it has also been noted that he can be triggered when he is woken up or by loud noises. If possible avoid waking him up. If he is in an environment that is loud such as the lobby consider encouraging him to sit in a quieter area.</p> <p>5. If Mark is verbally and physically responsive remove all residents from the area. Utilize GPA reassurance stance when speaking to Mark and speak calmly. Do not reprimand Mark or rehash the situation as he does not typically understand the reasoning for his behaviours and may escalate further. Focus on calming strategies.</p> <p>6. Mark may also become disoriented, pace or wander when bored, anxious or stressed due to uncomfortable environment, lack of exercise or engagement. When boredom noted, encourage Mark to utilize red tool activity box. Involve Mark with cleaning tasks weekly in his room to avoid room from becoming cluttered and to engage him in activity.</p> <p>7. Be mindful of Mark, involve him in decision making when rearranging or moving his personal belongings.</p> <p>8. Be sure to complete bedside table cleaning task twice a day.</p> <p>9. Address Mark by name assuring you are making an eye contact.</p> <p>10. Use 2 staff for all personal care.</p> <p>11. Continue to assess need for PRN medication at early signs of agitation when</p>	Nurse
