		<p>to wheelchair and be brought to the main dining room for programs so she can be around other residents, daily at 1000H. If Christine refuses, respect her wishes. Inform registered staff.</p> <p>*Risk for responsive behaviour is YELLOW (moderate). Potential threat to self . Date Initiated: 04/01/2021 Created on: 04/01/2021 Created by: Regina Borkovskaia (Registered Nurse) Revision on: 12/17/2025 Revision by: Irene Flores (Registered Practical Nurse) • BSO RECOMMENDATIONS:</p> <p>1. MORNING CARE: a. When Christine is still sleeping when approached, allow her to sleep in and re-approach. b. If Christine is awake, start a conversation with her first, ask how she slept. Complement her clothes and how she looks. Then inform her that it is breakfast soon, ask if she needed help to prepare for breakfast. If she refuses, provide space and re-approach after 10-15 minutes. If she said yes: b1. Ask her if she want to go to the toilet. If yes, then provide the morning care while in the toilet, otherwise, morning can be done at bedside. Bring her clothes and incontinent product, give her option for the clothes. Inform her every step of the way and allow her to do things by herself. She needs help with pericare. b2. After morning care, let her sit in a chair inside her room and prepare breakfast tray in her bedside table.</p> <p>2. 2 staff to provide care at all times for safety.</p> <p>3. If Christine is getting agitated and starts screaming, make sure she is safe and provide space. She usually calms down by herself. Re-approach when calmer.</p> <p>4. If Christine is saying that she is going home, DO NOT re-orient by saying that she lives here now. Provide validation, say "I understand, is Janet (her daughter), going to pick you up soon?" Then can distract her by asking if she needed something to</p>

	Revision by: Jian Qiao (Registered Practical Nurse) Target Date: 03/10/2026	Revision by: Jian Qiao (Registered Practical Nurse) • PHYSICAL Behaviour: Renate has history of throwing things while around other residents (esp dining room) 1. Renate has been moved from West dining room to Main dining room. A staff should be sitting near her so that they can stop any untoward action towards other residents. 2. Remove tray/cutlery/plates right away after eating. This will prevent her from throwing things towards other passengers while in the dining room. Date Initiated: 08/13/2025 Created on: 08/13/2025 Created by: Selene Pancho (BSO - Internal) Revision on: 12/09/2025 Revision by: Jian Qiao (Registered Practical Nurse) • TRIGGERS leading to RESISTANCE to Care Needs of refusing to change clothing as expression of behaviour include confusion, misunderstanding care needs, and poor judgement. Date Initiated: 06/13/2025 Created on: 06/13/2025 Created by: Selene Pancho (BSO - Internal) Revision on: 12/09/2025 Revision by: Jian Qiao (Registered Practical Nurse) • RESISTANCE to Care Need: If Renate is refusing meds, refusing meals, VS check, refusing personal care, re-approach in 10-15 minutes. Report episode to Registered Staff. Date Initiated: 06/13/2025 Created on: 06/13/2025 Created by: Selene Pancho (BSO - Internal) Revision on: 12/09/2025 Revision by: Jian Qiao (Registered Practical Nurse) • WANDERING: Permit Renate to safely roam in common area. Redirect away from exit doors, elevator or other resident rooms as needed. Date Initiated: 06/13/2025 Created on: 06/13/2025	PCA

<p>• Potential for Expressive Behaviour of PHYSICAL AEB pushing the walker to hit other resident, pulling the fire alarm workers from the ladder; VERBAL AEB yelling at fire alarm workers to leave and yelling at her room mate; and SUSPICIOUS of the intent of the fire alarm workers inside her room related to Mental Illness of Huntington's Disease. She has episodes of refusing mouth assessment, shower and medications, however, Daria still has insight into her care and can decide for herself. Her preferences are respected. ABS score is 7.</p> <p>Date Initiated: 04/24/2024 Created on: 04/24/2024 Created by: Selene Pancho (BSO - Internal) Revision on: 12/09/2025 Revision by: Jian Qiao (Registered Practical Nurse)</p>			<p>from entering her room. Staff to make sure that yellow wandering band is up and properly placed all the time. ***</p> <p>Date Initiated: 04/24/2024 Created on: 04/24/2024 Created by: Selene Pancho (BSO - Internal) Revision on: 12/09/2025 Revision by: Jian Qiao (Registered Practical Nurse)</p> <p>• BSO RECOMMENDATIONS:</p> <p>A. Daria is triggered when another resident gets near her (invades her personal space) When this happens, staff to re-direct the other resident to move away from Daria, especially in areas where there are a lot of residents like dining room during meals.</p> <p>B. Daria does not want the room light (ceiling light) to be opened because she has sensitivity to light and develops a headache.</p> <p>When providing care to room mate</p> <ol style="list-style-type: none"> 1. staff to open other sources of light first (open the curtain during days, open the vanity light, open the overhead light of the room mate) and check if this is enough to provide care. (Make sure that the privacy curtain between the 2 beds is pulled. 2. If the room light is still needed, explain to Daria that the room light has to be opened to properly provide care to room mate. 3. Offer options to Daria: <ol style="list-style-type: none"> a. She can wear a blackout glasses (When provided by spouse) b. She can sit outside of the room for 10-15 minutes (duration of the care). 4. Provide the care as quickly but efficiently as possible. 5. Thank Daria for her considerations. <p>Date Initiated: 11/20/2024 Created on: 11/20/2024 Created by: Selene Pancho (BSO - Internal)</p>
