Prepare all the supplies needed for the morning care/shower before approaching Gary. 2. Approach Gary and have a little conversation with him, then tell him that you will help with morning care/ shower. 2. Gary would normally say no, provide gentle persuasion using his TV like: if the TV is off, you can say "I will turn on the TV for you after the care/shower; and if TV is on, say "I will bring some more DVDs for you so can watch more movies after the care/shower." Also, mention that the care will be fast. 3. While lying in bed, do peri care first, put the clean onesie and incontinent product then ask him to stand to pull it up, clean hin underarms with wet towel then dry towel before closing the entire onesie zipper. 4. Then cue him to sit in the chair to watch a movie. When he sits in the chair, turn on the TV. He will allow you to do the rest of the care like shaving and clipping nails. 5. While still sitting in the chair, change the linens of his bed. Put the pillow at the foot of the bed near the TV, that is how he lays down in bed. 6. When the bed is ready, Gary would go back to the bed. 7. Always thank him for his cooperation and let him know when you will be back again to provide care. <p>Date Initiated: 10/16/2021 Created on: 10/16/2021 Created by: Selene Pancho (BSO - Internal) Revision on: 12/22/2025 Revision by: Jian Qiao (Registered Practical Nurse)</p>
