Larry does not like when somebody is following him or being right next to him without his permission. Larry can be monitored from afar.</p> <p>4. Provide Larry orientation as to who you are and what you are here to do.</p> <p>5. Recommend that all staff who come into contact with Larry provide him with constant orientation and transparency saying "HELLO" and telling him why they are in the room each and every time.</p> <p>6. Sharing facts about what day it is, what time it is and just having casual conversation will go along way.</p> <p>7. Answer Larry's questions when he asks.</p> <p>8. Team approach with a calm demeanor and rule out possible causes of agitation. Do not argue with Larry, it will only escalate his frustration. He does not like to be told what to do.</p> <p>9. Validate his feelings, then explain and use reasoning. After explaining redirect him.</p> <p>10. When Larry is bored assist him to set up watching a sports channel. He enjoys PLUTO TV (an app on his TV) any classic TV shows. Instructions for staff on his table.</p> <p>11. Registered team to continue to monitor and assess for pain and administer PRN medication as ordered.</p> <p>12. Recommend being mindful of making loud noises in Larry's room such as dragging chairs across the floor, and staff talking outside his room at night as he is triggered by noise.</p> <p>13. If agitation does not subside with above approaches, daughters are able to calm</p>
