Report episode to Registered Staff.</p> <p>Date Initiated: 12/17/2025 Created on: 12/17/2025 Created by: Ksenia Tchipilko (RPN) Revision on: 12/17/2025 Revision by: Ksenia Tchipilko (RPN)</p> <p>• BSO RECOMMENDATIONS:</p> <ol style="list-style-type: none"> <li>1. When Margaret refuses care/shower use a STOP and GO approach. Re-approaching 15-20 min later. If she still refuses, respect her wishes and report this to your team leader.</li> <li>2. Utilize two staff members for all care. One to distract and one to provide care</li> <li>3. When encouraging Margaret for care, try not to ask questions that can be answered by "yes" or "no". Provide Margaret options with positive outcomes. Ex: "Would you like to change into this pink shirt or the blue shirt?"</li> <li>4. Use clear and simple instructions when providing care.</li> <li>5. When Margaret exhibits verbal expressions, do not take her words personally. Do not argue with her as this may escalate the situation.</li> <li>6. Margaret loves music by Elvis Presley and may be played to improve her mood prior to approaching for care.</li> <li>7. Margaret responds best to care on her own terms, and maintaining a consistent,</li> </ol>	<p>Practical Nurse</p> <p>PCA Registered Practical Nurse</p>

<ul style="list-style-type: none"> <li>Potential for Expressive Behaviour of Wandering, Verbal abuse, Socially Inappropriate behaviour and Resisting care related to DX of dementia.</li> <li>Physically expressive towards another resident on September 22, 2024.</li> <li>Date Initiated: 04/01/2023</li> <li>Created on: 04/01/2023</li> <li>Created by: Lisa Bould (RAI Coordinator)</li> <li>Revision on: 06/30/2025</li> <li>Revision by: Courtney Cipparone (PT - Physiotherapist)</li> </ul>			person-centered approach is a key to her well being.  8. Provide Margaret with stimulating activities throughout the day while she is awake. Example: montessori, picture books, magazines, pen and paper to doodle.  9. Staff to always introduce themselves and what their role is prior to providing any care/assistance to Margaret. Let Margaret know when you are leaving the room.  10. Ask Margaret if there is anything else she needs before leaving the room this may reduce behaviours as all her needs are met at the time.  11. Staff to utilize non defensive body language, make eye contact with Margaret and use simple sentences.  12. Staff to form a positive relationship with Margaret.  13. Report all expressive behaviours to team leader.  Date Initiated: 04/01/2023 Created on: 04/01/2023 Created by: Lisa Bould (RAI Coordinator) Revision on: 09/24/2025 Revision by: Ksenia Tchipilko (RPN)

## Care Plan Report

Focus	Goal	Interventions/Tasks	Position	Freq/Resolved	
<p>• Potential for Expressive Behaviour of WANDERING, PHYSICAL, VERBAL and RESISTANCE to care need nature related to Change in Routine, Symptom Progression of Dementia, Hx of wandering and exit seeking behaviours. Incidents on July 25, 26, 2025. Incident Aug. 20, 2025. August 29, 2025 physical aggression towards PSW Staff. Incident September 9, 10, 11, 19, 21, 25, 2025. Oct. 18/25.</p> <p>Date Initiated: 07/18/2025 Created on: 07/18/2025 Created by: Ksenia Tchipilko (RPN) Revision on: 12/27/2025 Revision by: Ksenia Tchipilko (RPN)</p>		<p>Avoid rushing, start with simple care when she is most at ease Minimize environmental stressors: loud noise, multiple staff, hurried interactions Avoid approaching/waking Radmila abruptly Break care into small, tolerable segments, instead of full completion at once Continue using simple, key words or phrases (e.g. wash, eat, toilet, yes/no) to promote development of procedural memory Monitor patterns and document times during the day when Radmila responds better to care (e.g. after medications were administered, after meals).</p> <p>2. Recommend the following strategies to encourage Radmila to take her medications:</p> <p>Assess Radmila's mood prior to offering scheduled medications to determine if timing is best. Offer medications in small amounts and prioritize the most essential medications first. Trial offering medications along with a food/drink of choice. Provide extra time and patience, avoiding pressure. Use STOP and GO as necessary.</p> <p>3. Providing clear, slow and simple instructions accompanied by gestures and mirror actions to support understanding due to agnosia and altered perception.</p> <p>4. If Radmila becomes agitated or showing expressive behaviours by the 1:1 presence, stand back. Radmila can be monitored from afar.</p> <p>5. Utilize two staff members (3 as needed) for all care. One (or two as needed) to distract and one to provide care.</p> <p>6. Radmila likes to hold things in her hands. Provide her with items from montessori kits to hold in her hands prior to providing care. Date Initiated: 08/27/2025 Created on: 08/27/2025 Created by: Ksenia Tchipilko (RPN)</p>

Initiate all interactions by greeting Radmila using culturally appropriate terms such as "teta"(aunt) in Serbian to support comfort and familiarity.</li> <li>2. Offer Radmila her bandana (marama) daily to provide her a sense of comfort. Culturally meaningful item contributed to emotional comfort and positive affect.</li> <li>3. Due to language barrier utiliza Serbian/English communication cue cards that are in Radmila's book. Seek Serbian-speaking staff member when possible to bridge the language barrier and reduce frustration during care.</li> <li>4. Recommend use of PRN analgesics under the current medical directive when pain indicators are observed (Ex: pacing, yelling, pushing away, moaning, grimacing, repeated troubled calling out, striking out, restlessness).</li> <li>5. Suggest pausing care activities if pain is suspected, alerting the nurse and waiting 30-60 min post-PRN administration before re-approaching.</li> <li>6. When Radmila refuses care/shower use a STOP and GO approach. Re-approaching 30-60 min later. If she still refuses, respect her wishes and report this to your team leader.</li> <li>7. Radmila really enjoys Serbian music. Please play music of choice for her.</li> <li>8. Engage Radmila in meaningful, purposeful daytime activities to help promote energy use during the day and support nighttime rest. "My Personhood Summary" is in Care book.</li> <li>9. Report all expressive behaviours to team leader.</li> </ol> <p>Date Initiated: 07/18/2025 Created on: 07/18/2025</p>	<p>PCA Registered Practical Nurse</p>

Be mindful of the noise in Sean's room at night as he is triggered by noise when he is sleeping. Offer him earplugs when he goes to bed. Earplugs are located in his night stand or team leaders cart.</li> <li>2. Recommend utilizing two staff to provide care as needed.</li> <li>3. Recommend to attend to Sean as soon as possible when he requires help, so Sean's behaviours do not escalate.</li> <li>4. Provide Sean orientation as to who you are and what you are here to do.</li> <li>5. Recommend that all staff who come into contact with Sean provide him with constant orientation and transparency saying "HELLO" and telling him why they are in the room each and every time.</li> <li>6. Team approach with a calm demeanor and rule out possible causes of agitation. Do not argue with Sean, it will only escalate his frustration. He does not like to be told what to do.</li> <li>7. If agitation does not subside with above approaches, utilize family (daughter).</li> <li>8. Report all expressive behaviours to team leader.</li> </ol> <p>Date Initiated: 04/15/2024 Created on: 04/15/2024 Created by: Lisa Bould (RAI Coordinator)</p>	<p>PCA Registered Practical Nurse</p>
