One of her favourite meals to prepare was chicken cacciatore. She also worked as a seamstress, daycare worker and at several retailer stores including Walmart.</p> <p>Antonia looks forward to going on community outings, especially Walmart, Burlington Mall and local restaurants. She appreciates opportunities to connect with others and benefits from programs that encourage conversation and connection. Some of her favourite group programs include; the auction, garden care, special entertainment, socials and musical activities. Antonia also looks forward to playing card games-especially Uno every evening with a group of her peers.</p> <p>In Antonia's leisure time, she enjoys watching Hallmark movies and game shows on a tablet in her room. She also loves listening to oldies country music. Antonia will also make her own popcorn in the Dining Room microwave to enjoy during a movie or show.</p> <p>At times, Antonia can become guarded, sometimes questioning the intentions of others. She expresses her thoughts freely and likes to share her opinions. It is important for team members to provide space for her to express these thoughts and feelings and use active listening, validation and reassurance to support a sense of trust. At the same time, team members may need to gently redirect or set boundaries when topics or behaviours are not appropriate, always maintaining respect and clarity while ensuring a safe and supportive environment.</p> <p>Date Initiated: 10/08/2025 Created on: 10/08/2025 Created by: Shelley Deir (Recreation Manager) Revision on: 10/16/2025 Revision by: Megan McLoughlin (Recreation Aide)</p> <ul style="list-style-type: none"> • MUSIC CARE APPROACH: Present Antonia with music care approaches such as; special entertainment, name that tune, musical bingo and listening to oldies country classics on a tablet in her room. <p>Date Initiated: 10/16/2025 Created on: 10/16/2025 Created by: Megan McLoughlin (Recreation Aide)</p>

During Michael's leisure time he enjoys watching sports, completing word search puzzles and reading, he especially looks forward to the Daily Chronicle every morning.</p> <p>During one to one visits, Michael enjoys reminiscing with staff and his peers about his life growing up in Cape Breton, Nova Scotia with his large family. Michael also likes to keep up to date with current events/ news and sports. His favourite hockey team is the Toronto Maple Leafs. He previously played on his university hockey team while attending St. Francis Xavier University.</p> <p>Michael occasionally expresses a desire to go outside to smoke, though he no longer smokes. When this occurs, offer redirection and, when possible, accompany him outdoors for fresh air. While outdoors, provide reading material or another engaging activity to help prevent him from searching for cigarette butts on the ground. Michael really enjoys being outdoors and benefits greatly from the fresh air. If it is not possible to take him outside at that time, avoid stating "he cannot go outside alone". Instead, gently redirect Michael with a warm conversation, reading material and a hot cup of coffee as this usually helps him feel calm and relaxed.</p> <p>Date Initiated: 02/02/2023 Created on: 02/02/2023 Created by: Megan McLoughlin (Activities/Rec Therapy) Revision on: 10/14/2025 Revision by: Megan McLoughlin (Recreation Aide)</p> <ul style="list-style-type: none"> • ONE to ONE: Provide Michael with individual visits for conversations ie. family, sports, current events and reminiscing about topics such as life in Nova Scotia- Cape Breton, being on a hockey team and growing up in large family.
